COUNTY UNIT BILL

SENATOR CRAIG INTRODUCED TWO BILLS WEDNESDAY.

AFTER WHITE SLAVERY

Among Other Bills is One to Tax "Movies" at \$50 Per-After Sunday Saloons.

Senator Anderson Craig of Nodaway county Wednesday re-introduced his county unit bill in the senate at Jefferson City, which provides that each county shall vote as a unit on the local option issue, and repeals the present provision that towns of 2,500 or more may vote by themselves.

Senator Craig also introduced a bill on Wednesday making white slavery in the state a felony.

Some of the other more important bills presented in the senate Wednesday were:

Prohibiting the killing of quail in Missouri for five years.

Providing for the direct election of United States senators in the same manner as in Oregon.

Providing for the pay of jurors who are not called upon to serve; establishing a system of supervision of accounts in the state institutions by the state auditor; establishing a state board of pardons of three members, who shall serve for five years, appointments to be made by the governor.

Providing that when corporations discharge a man they shall pay him for all services due.

Requiring railroad companies to return money paid for tickets if claim is presented within sixty days.

Joint and concurrent resolution prohibiting the application of the initiative to questions of taxation.

Joint and concurrent resolution providing for the submission of whether or not the state shall have a new constitution.

Allowing saloons to be opened at 1 o'clock Sunday afternoon and remain open the remainder of the day.

A series of five bills providing that deeds may be photographed before they are recorded.

Requiring all corporations doing business in Missouri to incorporate in the state.

To Tax "Movies."

A bill which Representative Wolf of Jefferson City is working on at Jefferson City provides for the licensing of moving picture shows. It probably will call for an annual tax of \$50. There are probably 1,600 moving picture houses in the state and the law would therefore mean an annual revenue of \$80,000 which money would go into the good roads fund.

The bill may call for the establishment of a state board of inspection which would visit all such places once every six months, inspect the building in regard to avenues of escape in case of fire, and of the strength of the structure for holding a crowd.

Proper ventilation and heating would be included in the work of the board, which, by the fee system, would be self-sustaining.

A board of censors is suggested to pass on pictures before they are exhibited. All "movies" dealing with train robbery, Indian killing and similar ones, which inflame the minds of the young people, would be eliminated.

Hopkins Man Thinks "He Missed It."

Dee Houston of this city is now of the opinion that he "missed it" by selling his 80-acre farm at the north edge of Burlington Junction, since he read in the paper the other day that this very same farm sold for \$175 an acre, and he only got \$60 an acre when he parted with it some dozen years ago.

The rent of the farm would have kept up the taxes and interest and the advance in price would have cleared up nearly ten thousand dollars for Mr. Houston if he had stayed with his Burlington Junction eighty. But who would live in Burlington Junction twelve years for ten thousand dollars. —Hopkins Journal.

470 PACKAGES OUT

MARYVILLE PEOPLE LIKE THE PARCEL POST SYSTEM.

835 PACKAGES SENT IN

Parcel Post Zones Are Not Evenly Divided—Southern States Are Favored to Quite a Degree.

Since the parcel post system was inaugurated, January 1, there has been delivered here 835 packages by the local postoffice. There has also been sent out 470 packages from Maryville. The money spent for postage in sending the packages amounted to \$36.60.

It has been discovered that the zones are not equal, and postoffice department officials at Washington have discovered that the parcel post zone system discriminated against the northern part of the United States, and in favor of the southern states.

They declared it was due to the east and west shortening of the lines of longitude, on which the parcel post units is based, on a unit of area arbitrarily fixed on one quarter of the area formed by the intersecting parallels," the officials explain. "The unit is a rectangle with thirty minutes on a side. The actual unit of the area varies, however, because of the variation in the length of the degree of longitude.

"At the equator a degree of longitude is 69 miles, but as far north as Chicago it is only 53 miles. The degree of latitude is practically constant at 69 miles. The result is that in the extreme southern part of the United States the parcel post zone is an area 69 miles north and south approximately 57 miles east and west.

"At Chicago the zone is 53 by 69 miles. The law prescribes: 'The first zone shall include all territory within such a quadrangle, in conjunction with every continuous quadrangle, representing an area having a mean radial distance of approximately 50 miles from the center of any given unit of area.

The result of the variation in longitude is that a package may be sent north and south in the first zone the full 50 miles, but in the northern part of the country less than 50 miles east and west. In the neighborhood of Chicago the maximum distance of an east and west transit in the first zone is between 35 and 40 miles, while in southern Texas it is about 55 miles.

SUSTAINED ON SIDEWALK

In a suit filed Thursday by Cook, Cummins & Dawson, attorneys, for Mrs. Laura Price, the city of Maryville is sued for \$2,500 damages for injuries Mrs. Price sustained while walking over a very dangerous and unsafe place in a sidewalk on Fillmore street, according to the petition.

The petition states that the city had constructed and was maintaining a sidewalk of flagstone on the west side of Fillmore street, where the sidewalk crosses Jenkins street, and that the same was in a dangerous and unsafe condition for persons walking over it, that the earth under said walk had sunk and washed away, causing the sidewalk to sink and to cause persons walking to fall and injure themselves. The petition further states that the city had been notified of the place, and by ordinary diligence could have repaired same before the plaintiff was injured.

The plaintiff claimed she sustained injuries while walking over the sidewalk on the evening of November 2, 1912, while using due care and caution, and stepped into the depression and sunken place, throwing her down, bruising and contusing her right shoulder, right arm bruised, and other injuries which confined her to her bed for many weeks.

BERNEY HARRIS'

Great January Slaughter Sale

And the people are showing their appreciation of these highgrade "up-to-the-minute" styles and qualities at the "terrific reductions in prices" by their continued purchases.

But then "Berney's Sales are always successful." His plan is so simple, "all are treated alike." "A child" can buy as cheap as "a man." The child can wait on himself—note the "original prices," which is always marked in "plain figures," then compare same with the "reduction sale price as advertised in the papers," give the money to the clerk and walk out with his bargain feeling as big as his dad.

No wonder Berney's Sales are well attended. The people appreciate Great Values in New and Correct Styles.

FINAL DEBATE ON HOME RULE BILL

Balfour Sees Risk if Ulster's
Wishes Are Ignored.

PREMIER ASQUITH IN ANSWER.

Government Head Declares Troubles
Which Have Kept England and Ire-
land Apart Will Be Removed by His
Law—Lords to Reject Measure.

London, Jan. 15.—The home rule
bill entered upon its final stage in the
house of commons. The debate must
be concluded tonight and the measure
then will pass on to the house of lords,
where its rejection is a foregone con-
clusion.

On the formal motion that the home
rule bill be read a third time, Arthur
J. Balfour immediately rose and pre-
sented to the house the official Union-
ist motion for its rejection.

Mr. Balfour's speech was an appeal
to the country to realize the risks it
was running in allowing the home rule
bill to become law. The present British
government, he averred, had duped
everybody and the principal dupes
were the Nationalists, who thought
that Ireland by this bill had been
made a nation, and the English citi-
zens, who thought they had secured
political peace.

Mr. Balfour termed the home rule
bill an abortive attempt at federalism.
He said the fact that Premier Asquith
had offered safeguards was a sufficient
justification for the claim of the pro-
vince of Ulster to be given federal sepa-
ration from the rest of Ireland.

Refers to Former Blunder.

Mr. Balfour concluded by comparing
the case of Ulster to that of the re-
belling American colonies. He said:
"Something will arise to stir the
people of this country and make them
realize what it is that Ulster men
claim of. If blood be spilled, which
God forbid, the real assassins will be
those who have never had the courage
to face the situation."

Premier Asquith, who replied for
the government, characterized Ulster's
effort to defeat "the great constitu-
tional demand of Ireland" as absolute-
ly fatal to democratic government.

Apart from all the safeguards con-
tained in the bill there would, he said,
be influences which would operate
most strongly, namely, self-interest
and common sense.

The premier declared he was satis-
fied that the helpful influence which
had kept the two countries apart in
the past would be exercised by the
bill and permanent unity established.
In allowing the different parts of the
empire to build up on their own lines
of self government and self develop-
ment Great Britain always had had
its reward in increased affection, he
asserted.

DENVER SAILS FOR MEXICO

American Cruiser Ordered to Acapulco
to Protect Foreigners.

Washington, Jan. 16.—The cruiser
Denver has been ordered from San
Diego, Cal., to Acapulco, Mex., where
a desperate situation is reported, with
Americans in danger. It sailed today
and should arrive at the Mexican port
in about four days. Commander Wash-
ington has about 270 "jacksies" aboard
and a company of marines.

The decision to send a warship to
protect Americans was reached after
alarming reports of the activity of
rebels under Julio Radillo had been
received through Ambassador Wilcox
at Mexico City.

Consul Edwards at Acapulco had
suggested that inasmuch as the Mex-
ican commander of the town had ad-
mitted his inability to reinforce the
garrison, a warship should be sent out.

The last report from Acapulco said
Radillo was operating in the country
about there and that refugees from
every direction were pouring into the
town, which is one of the most im-
portant Mexican ports on the Pacific.
Depredations and atrocities by the ap-
proaching rebels were reported.

Americans and other foreigners will
be taken aboard the Denver when it
reaches there if they so desire. The
Denver is the nearest ship to the dan-
ger point.

Burrows Provincial of Missouri.

St. Louis, Jan. 16.—Very Rev. Alex
ander J. Burrows, S. J., president of
St. Louis university, has been appoint-
ed provincial of Missouri province
which includes six universities and a
number of colleges and other Jesuit
institutions. Father Burrows will
have jurisdiction over the territory
north of Tennessee from the Alle-
ghanies to the Rocky mountains.

70,000 Tots Affected by Divorce.

New York, Jan. 16.—More than 70,
000 children, mostly under the age of
nine years, were deprived of one or
both parents by divorce in this country
during the last year, according to
figures with which the Rev. Francis
M. Moody stirred members of the New
York state marriage and divorce com-
mission.

Divorce Granted Cahen.

New York, Jan. 16.—Joseph Cahen,
known on the stage as Joseph Kane,
was granted a divorce from a his wife,
whose stage name is Blossom Seeley,
by Justice Newberger. "Iube" Mar-
quard, pitcher of the New York Na-
tional league club, was named as co-
respondent. The case was undefended.

RECHAD PASHA.

Turkish Peace Delegate
Principal Figure In
The Conference Crisis.

Photo by American Press Association.

This photograph of the leading Turkish
plenipotentiary to the Balkan peace
conference in London was taken during the
sessions which recently were suspended
because Turkey refused to concede all the
allies' demands. Rechad Pasha is now
the center of interest in what looks like
the final breaking up of the negotiations.

TURKISH BATTLESHIP ESCAPES FROM STRAIT

Bombards Powder Magazine and
Sinks Greek Cruiser.

Athens, Jan. 16.—The Turkish cru-
iser Medjidieh performed a daring feat
in a heavy fog. It steamed out of the
Dardanelles and passed unperceived
through the lines of the Greek destroy-
ers cruising off the straits. It appeared
at noon off the island of Syra and
bombarded the powder magazine and
coal depots. These were not dam-
aged but the electrical power station
was wrecked.

The Medjidieh also fired on the
Greek auxiliary cruiser Macedonia
which was undergoing repairs in Syra
harbor. When fifteen shells had been
fired the commander of the Mace-
donia, after landing his crew to main-
tain order in the town and strengthen
the guard over the Turkish prisoners
sank the Macedonia in the harbor to
prevent its destruction by the war
ship.

The Medjidieh then left in the di-
rection of Smyrna.

TRYING TO STOP WAR TALK

Powers Endeavoring to Prevent Re-
sumption of Hostilities.

London, Jan. 16.—The meeting of
the ambassadors of the powers was
devoted chiefly to a discussion of the
means of putting a brake on the
threatened resumption of the war in
the Balkans. Breathing time was
given for efforts in this direction by
the decision of the Balkan plenipot-
entiaries to delay further action until
the Turkish government has had full
opportunity for the discussion of the
ambassadors' note, which will be pre-
sented this week.

It is quite evident that both sides
would welcome the discovery of an ac-
ceptable way to avoid further fighting.
Rechad Pasha asserts that but for the
fact that the European powers have
shown bias in favor of the claims put
forward by the allies the Turkish dele-
gates would have been able to compro-
mise with their adversaries long ago.

HYDE ON TRIAL FOR THIRD TIME

Selection of Veniremen Begins at Kansas City.

ACCUSED OF POISONING SWOPE

Kansas City, Jan. 16.—After several postponements, the third trial of Dr. B. Clarke Hyde for the murder of Colonel Thomas H. Swope, began when the selection of forty-seven veniremen from whom the jury will be chosen started.

The physician is accused of administering typhoid germs, cyanide and other poisons to Colonel Swope, who died in October, 1909. Dr. Hyde, whose wife was Colonel Swope's niece, was indicted on the murder charge March 6, 1910, and at his first trial was found guilty and sentenced to imprisonment for life. The state supreme court reversed the case. The second trial was halted by the escape of Harry Waldron, a juror, from the custody of the marshal. Judge Porterfield declared a mistrial and discharged the jury.

NO PARTIES FOR BRIDES

Two St. Louis Girls Ask Friends Not to Entertain for Weddings.

St. Louis, Jan. 16.—No longer will brides-to-be and their wedding parties be extensively entertained if society follows the example set by Miss Ada Randolph and Miss Hilda Hays, who have asked their friends to abstain from any entertainment in honor of their approaching weddings.

Miss Randolph and Miss Hays are members of the smartest set in society. Miss Randolph is the daughter of Thomas Randolph, vice president of the National Bank of Commerce, and was the queen of the Valedictorians last year. Both young women have asked that no affairs be given in their honor before their marriage. Their reason for this request is that the round of entertainment a bride usually goes through before the day of her marriage almost makes a physical wreck of her, with the result that the bride often looks her worst at the altar.

STATE SUFFRAGISTS CALL

Votes for Missouri Women Asked by St. Louis Delegation.

Jefferson City, Jan. 16.—A woman's suffrage delegation from St. Louis, all of them society women, swooped down upon the unsuspecting legislators and began a vigorous campaign for a suffrage amendment.

Mrs. David O'Neill, Mrs. D. W. Kneifer and Mrs. John Lowes headed the party. All wore "votes for women" buttons and the way they buttoned the senators and members of the house and obtained their promises to vote for the submission of the amendment wasn't slow.

"Under the Missouri constitution," Mrs. Kneifer explained, "it will take two amendments to give women equal rights with men in Missouri; one to give them the ballot; the other to give them the right to hold office. Our campaign will be simply for the ballot. The men can have the positions."

GAS CASE IN LEGISLATURE

Van Valkenburgh in recent receiverships of the Kansas Natural and the Kansas City gas companies. Senator W. W. Greene and Representative O. H. Swearingen will introduce a joint resolution asking on the part of Missouri that congress take up the proceedings and press them.

Car Kills Two in Shale Mine.

Hannibal, Mo., Jan. 16.—Two men were killed and a third severely injured when a small car used in taking shale from a mine dashed down a steep slope into a shale pit of the Atlas Portland Cement company. The three men were in the bottom of the shale mine, engaged in drilling preparatory to setting off a blast. While the engineer left the power house to secure coal, someone kicked the clutch which held the car.

WAIST MAKERS JOIN STRIKE

Two Hundred Thousand Garment Workers Now Out in New York.

New York, Jan. 16.—Fifty thousand flaming red posters, distributed in 500 girls' dress and shirt waist factories turned nearly 40,000 workers into the ranks of the strikers in the garment making trades, now numbering nearly 200,000. The posters were the official call for a strike among the dress and waist makers, who had previously sanctioned such action by an overwhelming vote. All of these employees are girls, some of them under fourteen years old, and their organizations have appointed committees to guard the idle workers against agents of the white slave trade.

The first demand of the dress and waist makers is "no locked doors." They declare that the lesson taught by the Asch building fire, in which 147 girls lost their lives, has not been heeded and that they are forced to work in unsafe and unsanitary shops.

PLAN OF DISSOLUTION

Union Pacific Will Take Over Lease of the Central Pacific.

New York, Jan. 16.—It was learned from an authoritative source that the Union Pacific Railroad company plans to take over the Central Pacific Railway company by lease from the Southern Pacific company and in this way meet the requirements imposed by the supreme court in its decree ordering the dissolution of the Union and Southern Pacific.

Just how the Union Pacific is to assume the Central's obligations to the Southern Pacific has not yet been determined, but it is supposed that the transfer of the lease, if consummated, will involve the transfer of some \$125,000,000 in Southern Pacific stock now owned by the Union Pacific.

SUGAR INTERESTS HEARD

Fail to Move House Committee for Tariff Protection.

Washington, Jan. 16.—Sugar refiners, beet sugar men, California wine producers, mineral water importers and others descended in force upon the house committee on ways and means to fight out the tariff issue.

Nothing in the committee's examination of the varying shades of sugar rate views indicated any weakening of the tentative Democratic plan for presenting another free sugar bill for action by the house at the coming extra session of congress.

Chicago to Arrest 10,000 Crooks.

Chicago, Jan. 16.—Officials at detective headquarters are preparing for a crusade against "crooks" with a known police record which is expected to result in 10,000 arrests on vagrancy warrants. The move was decided on because of the crime wave which has swept over the city during the last few weeks.

COUNTY UNIT BILL

SENATOR CRAIG INTRODUCED TWO BILLS WEDNESDAY.

AFTER WHITE SLAVERY

Among Other Bills is One to Tax "Movies" at \$50 Per-After Sunday Saloons.

Senator Anderson Craig of Nodaway county Wednesday re-introduced his county unit bill in the senate at Jefferson City, which provides that each county shall vote as a unit on the local option issue, and repeals the present provision that towns of 2,500 or more may vote by themselves.

Senator Craig also introduced a bill on Wednesday making white slavery in the state a felony.

Some of the other more important bills presented in the senate Wednesday were:

Prohibiting the killing of quail in Missouri for five years.

Providing for the direct election of United States senators in the same manner as in Oregon.

Providing for the pay of jurors who are not called upon to serve; establishing a system of supervision of accounts in the state institutions by the state auditor; establishing a state board of pardons of three members, who shall serve for five years, appointments to be made by the governor.

Providing that when corporations discharge a man they shall pay him for all services due.

Requiring railroad companies to return money paid for tickets if claim is presented within sixty days.

Joint and concurrent resolution prohibiting the application of the initiative to questions of taxation.

Joint and concurrent resolution providing for the submission of whether or not the state shall have a new constitution.

Allowing saloons to be opened at 1 o'clock Sunday afternoon and remain open the remainder of the day.

A series of five bills providing that deeds may be photographed before they are recorded.

Requiring all corporations doing business in Missouri to incorporate in the state.

To Tax "Movies."

A bill which Representative Wolf of Jefferson City is working on at Jefferson City provides for the licensing of moving picture shows. It probably will call for an annual tax of \$50. There are probably 1,600 moving picture houses in the state and the law would therefore mean an annual revenue of \$80,000, which money would go into the good roads fund.

The bill may call for the establishment of a state board of inspection which would visit all such places once every six months, inspect the building in regard to avenues of escape in case of fire, and of the strength of the structure for holding a crowd.

Proper ventilation and heating would be included in the work of the board, which, by the fee system, would be self-sustaining.

A board of censors is suggested to pass on pictures before they are exhibited. All "movies" dealing with train robbery, Indian killing and similar ones, which inflame the minds of the young people, would be eliminated.

Hopkins Man Thinks "He Missed It."

Dee Houston of this city is now of the opinion that he "missed it" by selling his 80-acre farm at the north edge of Burlington Junction, since he read in the paper the other day that this very same farm sold for \$175 an acre, and he only got \$60 an acre when he parted with it some dozen years ago.

The rent of the farm would have kept up the taxes and interest and the advance in price would have cleaned up nearly ten thousand dollars for Mr. Houston if he had stayed with his Burlington Junction eighty. But who would live in Burlington Junction twelve years for ten thousand dollars. —Hopkins Journal.

470 PACKAGES OUT

MARYVILLE PEOPLE LIKE THE PARCEL POST SYSTEM.

835 PACKAGES SENT IN

Parcel Post Zones Are Not Evenly Divided—Southern States Are Favored to Quite a Degree.

Since the parcel post system was inaugurated, January 1, there has been delivered here 835 packages by the local postoffice. There has also been sent out 470 packages from Maryville. The money spent for postage in sending the packages amounted to \$36.60.

It has been discovered that the zones are not equal, and postoffice department officials at Washington have discovered that the parcel post zone system discriminated against the northern part of the United States, and in favor of the southern states.

They declared it was due to the east and west shortening of the lines of longitude, on which the parcel post units is based, on a unit of area arbitrarily fixed on one quarter of the area formed by the intersecting parallels, the officials explain. "The unit is a rectangle with thirty minutes on a side. The actual unit of the area varies, however, because of the variation in the length of the degree of longitude.

"At the equator a degree of longitude is 69 miles, but as far north as Chicago it is only 53 miles. The degree of latitude is practically constant at 69 miles. The result is that in the extreme southern part of the United States the parcel post zone is an area 69 miles north and south approximately 57 miles east and west.

"At Chicago the zone is 53 by 69 miles. The law prescribes: 'The first zone shall include all territory within such a quadrangle, in conjunction with every continuous quadrangle, representing an area having a mean radial distance of approximately 50 miles from the center of any given unit of area.

The result of the variation in longitude is that a package may be sent north and south in the first zone the full 50 miles, but in the northern part of the country less than 50 miles east and west. In the neighborhood of Chicago the maximum distance of an east and west transit in the first zone is between 35 and 40 miles, while in southern Texas it is about 55 miles.

THE CITY IS SUED

MRS. LAURA PRICE IS WANTING \$2,500 DAMAGES FOR INJURIES.

SUSTAINED ON SIDEWALK

On Fillmore Street—Saturday Is the Last Day to File Trial Case for February Term.

In a suit filed Thursday by Cook, Cummins & Dawson, attorneys, for Mrs. Laura Price, the city of Maryville is sued for \$2,500 damages for injuries Mrs. Price sustained while walking over a very dangerous and unsafe place in a sidewalk on Fillmore street, according to the petition.

The petition states that the city had constructed and was maintaining a sidewalk of flagstone on the west side of Fillmore street, where the sidewalk crosses Jenkins street, and that the same was in a dangerous and unsafe condition for persons walking over it, that the earth under said sidewalk had sunk and washed away, causing the sidewalk to sink and to cause persons walking to fall and injure themselves. The petition further states that the city had been notified of the place, and by ordinary diligence could have repaired same before the plaintiff was injured.

The plaintiff claimed she sustained injuries while walking over the sidewalk on the evening of November 2, 1912, while using due care and caution, and stepped into the depression and sunken place, throwing her down, bruising and contusing her right shoulder, right arm bruised, and other injuries which confined her to her bed for many weeks.

Another suit filed Thursday was a partition suit of Mattie J. and David W. Owens vs. Mary E. Johnson et al.

As Saturday is the last day of service for the February term of circuit court, a number of suits will probably be filed within the next two days.

THIS LADY'S
GOOD APPETITEMrs. Hansen, In a Letter From
Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble."

My husband asked me to try Cardui. I felt better after the first bottle, and now I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardui.

Cardui is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.
